

Murray Sees Victory in Steel Strike

Pittsburgh, Oct. 12 — (AP) — Philip Murray said today that the steel strike will end soon with complete victory for his men in their fight for free pensions and insurance.

"I assure you that before very long we will all be happy," Murray said in a fighting address at Youngstown, O. It was his first public appearance since the outbreak of a pep tour to take him to several of the nation's steel centers.

There was no reply from industry to Murray's optimism. He said his charges industry had forced \$45,000 of his men to strike.

The U. S. conciliation service went ahead setting up separate meetings with union and top industry leaders in an effort to break the strike. The first session is scheduled with Bethlehem Steel

corporation tomorrow at New York.

The conciliation service also kept an eye on reopening of contract talks today between soft coal operators and the striking 80,000 United Mine Workers. It's worried over the approaching crisis as the result of the 24 day old coal strike. Both strikes are threatening a knockout blow at American economy. More and more industries are being affected.

Iron Age, the national metalworking weekly, says if real collective bargaining does not take place soon, the country can look for one of the worst tiups in history "because it will knock recovery efforts of the economy into a cocked hat."

Iron Age said steel stocks are generally smaller than had at first been estimated.

The fabricators, employing a half million steelworkers, are threatened by strikes starting Saturday. Their contracts begin running out then, continuing until mid-December. Murray already has served notice he wants free pensions and insurance for the fabricator employees, just as does for the men in basic steel, now on strike.

Even as Murray was speaking to 15,000 cheering strikers yesterday, the International Carversteel company laid off about 3,500 employees at its Chicago McCormick plant because of depleted steel supplies. That brought the total of men strike-idled in related industries to more than 50,000 — including 4,000 on coal and steel.

The Milwaukee railroad announced it is temporarily reducing some of its passenger train service to conserve coal.

Hydramatic Nash Shown in Hope

First of the Nash Ambassador line of motor cars equipped with hydramatic shift is being shown in Hope by Earl Powell, of Powell Nash Motors, East Third Street.

Mr. Powell's first car to be equipped with the famous hydramatic transmission arrived yesterday. It is a four-door Ambassador Super.

Nash recently announced the hydramatic shift would be available on the larger of its two cars, the Ambassador, but not on the Stateman, the lower-priced model.

The hydramatic shift takes the Ambassador from a standing start through the various gears into overdrive without using a clutch and even without lifting the foot from the accelerator. There is no clutch pedal, in fact.

Another new feature of the Ambassador is the location of the starter switch in the gear-shift lever on the steering-post.

Russia Would Like to Count Atomic Bombs

Lake Success, Oct. 12 — (AP) — Russia has renewed her demand for a world wide count of atomic bombs by the United Nations.

U. S. Delegate Warren Austin called the Soviet move "another attempt to fool the public."

The Soviet demand was made by Deputy Foreign Minister Jakob Malik late yesterday in the U. N. security council. It called for a tally of all weapons, from atom bombs to airplanes and artillery, from battlehips to bayonets.

Each nation would report on its own weapons under Malik's proposal, with no provision for checking on the truth of the statements.

Warren Austin, U. S. delegate who is this month's chairman of the council, did not answer Malik on the floor. But immediately after the meeting he told newsmen: "A census of weapons with-

Active Duty

Rev. W. P. Hardegree

Rev. Wm. P. Hardegree, minister of First Christian church, has been selected by the Commanding General, Fourth Army, to represent the eighth Corps Area at the 85th class of the Chaplain's School, Carlisle Barracks, Pennsylvania, October 17 to November 2.

Rev. Hardegree has been a member of the organized Reserve since August 2, 1930 as a Chaplain. He spent three years as district Chaplain of the East Texas District Civilian Conservation Corps, from 1935-1938, with headquarters at Lubbock, Texas.

Chaplain Hardegree was the first Reserve Chaplain called to active duty during World War II. He served five and one-half years in contract for the local church in January of this year. The pulpit will be filled during his absence by members of the Laymen's League. The following will conduct services: Frank Rider, Ted Jones, Donald Moore, R. L. Ponder, Billy McDuff, and George Dadds.

At the time he was discharged from the Army, he was Post Chaplain, Camp Robison, Little Rock. He accepted the church here in Hope immediately on being discharged. His family, who had been living in Beaumont, Texas, during the three years overseas and the year in the States, moved to Hope. The Chaplain was not able to find a place for them to live in Little Rock, and he says that one year there was longer than three years overseas.

Chaplain (Lt. Col.) Hardegree was extended another three year contract by the local church in January of this year. The pulpit will be filled during his absence by members of the Laymen's League. The following will conduct services: Frank Rider, Ted Jones, Donald Moore, R. L. Ponder, Billy McDuff, and George Dadds.

out verification is meaningless. This is another attempt to fool the public."

"The proposal for the addition of atomic bombs to the census adds nothing new," Austin said. "It continues to reflect an unwillingness on the part of the Soviet Union to recognize the real nature of the atomic problem."

The Russian proposal was not acted on and Malik refused to go into detail on it when he spoke to newsmen after the meeting.

Malik was directly asked if Russia has atomic weapons.

He answered, "Read the Tass communication."

That Soviet press agency said on Sept. 25 that the Russians have atomic weapons at their disposal. The agency statement followed disclosure by President Truman that an atomic explosion took place recently in Russia.

Malik's statements yesterday in the security council took on added interest because it was the first Russian statement of atomic policy since Mr. Truman's disclosure. Malik returned to the United States from Moscow after the news broke.

Arizona Youth Is Named Star Farmer

Kansas City, Oct. 12 — (AP) — A lanky 19 year old youth who started a farm program with a single heifer and built up a 48-cow dairy herd has been named the Star Farmer of America.

Kenneth England, Chandler, Ariz., was given the award last night at the future farmers' America convention. It is the future farmers' highest honor.

Three regional star farmers also were named. They are John Castroginni, 22, Montrose, Pa., North Atlantic region; Robert S. Stevens, Jr., 19, Lynchburg, Va., Southern region; and Jack Haidy King, 20, Dadeville, Mo., North Central region.

The awards are made annually. A \$1000 prize went to England. The regional winners received \$500 each.

England began with a jersey heifer for which he obtained while in grade school. Now his herd is valued at more than \$7,000 and he still is building it up. Buildings, livestock are included among his assets.

Storm Damage Strengthens Price of Rice

Dallas, Oct. 12 — (AP) — Storm damage and slightly improved demand strengthened Southwest rice markets during the past week.

U. S. department of agriculture's production and marketing administration reports.

Rains and high winds throughout the southwest belt not only stopped field work, but also caused further damage to the rice crop although not yet accurately determined, losses appear to be less than earlier estimates. More than 75 per cent of the crop had been

of more than \$20,000 through his F. F. A. projects.

Castroginni owns 180 acres of land and rents 140 acres. His dairy herd of 51 holsteins is valued at \$3,800. Stevens farms on a 50-50 basis with his father and has major responsibility for 197 acres.

The degree of American Farmer was presented also yesterday to 237 youths. The degree is for achievement in agriculture and only one member in a thousand may attain it.

Thousands of farm youths from all parts of the nation are attending the convention which continues through Thursday.

Additional awards for farm achievements will be made tonight.

harvested in Louisiana and Texas, and 50 to 60 per cent was completed in Arkansas. However, quality of storm damaged rice was lowered materially.

Rough rice prices advanced slightly over the previous week. Marketings were light as a result of the unfavorable weather.

Appeal Made to Keep Union United

Cleveland, Oct. 12 — (AP) — Some 100 union leaders representing the leftwing faction of the CIO in Cleveland asked CIO President Philip Murray today to do everything in his power to "keep the CIO united."

"Restore democracy and autonomy" to affiliated unions under attack by top CIO union leaders, the letter said.

The letter was adopted at a conference on "democracy and autonomy" in the CIO here.

A call to the conference was published in last Sunday's Ohio edition of the Daily Worker, Communist party newspaper. Among the unionists who signed the call were Cleveland members of the fur workers; Longshoremen; United Electrical Workers; United Office and Professional Workers; Mine, Mill and Shelter Workers; United Automobile Workers and United Steelworkers.

ers representatives were from the left wing minorities in those big unions which are loyal to Murray. The other five unions with members at the meeting are among the 11 left wing dominated CIO unions facing discipline and possible expulsion from the national CIO at the convention opening here Oct. 21.

The letter said that CIO national policy has been to "demand x x that every union conform to the decisions of the CIO executive board on political questions."

The ukelele was taken to the Hawaiian Islands by Portuguese immigrants.

(Hazel Rogers Weds Pennsylvania)

The Sewickley Presbyterian church in Sewickley, Pa. was the scene of the wedding on Friday, September 30 of Hazel LaRue Rogers, daughter of Mrs. James Thaddeus Rogers of Glen Osborne, formerly of Pamos, Ark., and the late Mr. Rogers, and John Bewers her groom, son of Mr. and Mrs. John B. Dixon of Edgeworth, Md. Reverend Lockhart Amernman officiated at the double ring ceremony at seven-thirty o'clock, at the altar decorated with fern and candelabra. Alfred H. Johnson was organist.

The bride was given in marriage by her uncle, Dorsey Burns of Coropopolis Heights. She wore a gown of white satin fashioned with a tight fitting bodice, long pointed sleeves and a sweetheart neckline. The full skirt ended in a long train and the finger-tip veil of illusion fell from a lace crown. She carried a prayer book upon which was a white orchid.

Mrs. Fred Dixon, a matron of honor, wore a gown of pale green. The bridesmaid, with a sweetheart

neckline, was of satin and the skirt was of marquisette over taffeta. Mary Nell Johnstone of Sewickley and Catherine Barger of Glen Osborne, were the bridesmaids and the matron of honor wore a yellow and peach, respectively. They carried white chrysanthemums, and wore bands of the same flowers in their hair. Mr. Dixon had his brother, Fred Dixon, for his best man and the ushers were Charles Hinds of Leedsdale, David Wilson of Pittsburgh, and Howard and James Rogers, brothers of the bride.

The bride's mother wore a dress of blue with black accessories and Mrs. Dixon wore a peacock blue dress with brown accessories. Both wore shoulder corsages of rose buds.

A reception was held in the church house immediately following the ceremony. After a short wedding party, Mrs. Dixon will be at home in Evans City, where Mr. Dixon has accepted a position as instructor of French and English in the senior high school.

The brides grandmothers are Mrs. J. Burns and Mrs. Dosia Rogers of Pamos.

Someone to Love

By IRENE LONNEN ERNHART Copyright, 1949, NEA SERVICE, INC.

The Story: Jenny's marriage to Tod Duncan has nearly bogged down with difficulties. Not the least being the arrival of twin sons, and Tod's inability to forget Liz Conover, who jilted him. After Tod's graduation from college, they live in the guest cottage of the old church. Rick, Morris, while Tod commutes. Tod suspects that Rick is in love with Jenny. Meanwhile, Tod's mother, who dislikes Jenny, suggests that Tod stay the city all week, returning home at week-ends. Then Tod stays away one week-end. Jenny borrows Rick's car and finds a squalid basement apartment in the city — so she can live with Tod. He thinks it's all right — for something "temporary."

Jenny had thought Tod's restlessness and discontent through the summer had resulted from commuting back and forth, and the strain of adjusting himself to his job. She had even wondered if jealousy of Rick had something to do with it. And now that they were settled in the basement apartment on Randolph street, she looked for a change in him. But there was none. His irritability and moodiness increased instead of lessened.

"Tod, are you worried about something?" "No. Of course not." He picked up a book and opened it at random.

"You seem to be worrying over something. I thought maybe it was something I could help with."

"Does anybody ever have enough money?" he said, almost too promptly.

A short silence, then Jenny said, "I know this apartment costs more than it's worth, but if we're together, you and I and the babies, it's a great deal."

Tod snapped the book shut impatiently and rose.

"Are you worried about your mother?" Jenny asked.

He went over to the closet and took out his hat. "Yes, I'm worried about her." A thin hint of irritation threatened his voice.

Jenny watched in silence as he put on his coat and went out muttering something about cigarettes.

Tomorrow, she decided, she would see Mrs. Duncan. She would ask the landlady to sit with the twins for an hour.

Minton Takes Oath as Justice

Washington, Oct. 12 —(AP)—Sherman Minton, 58, took the oath as a justice of the U. S. Supreme court today in a White House ceremony.

Minton, a former Democratic senator and "New Dealer" from Indiana, was sworn in by Chief Justice Vinson. President and Mrs. Truman and scores of other notables were present.

The ceremony took place on the porch just outside Mr. Truman's office before about 400 persons standing in the rose garden.

As he handed his former senate colleague his commission as an associate justice, the President told the crowd:

"I've got a duty to perform which is one of the most pleasurable in my political career."

"I'm handing Mr. Justice Minton his commission as a member of the highest court in the world."

President Truman picked Minton from the Seventh U. S. Circuit Court of Appeals of Chicago where he has served since 1941. He succeeds the late Justice Wiley Rutledge.

Vinson was the first to congratulate Minton. Mr. Truman gave a vigorous handshake. Then there was a full 15 minutes of handshaking with the spectators, including Tom C. Clark, recently appointed to the court to succeed the late Justice Murphy.

DOROTHY DIX Unfaithful Wife

Dear Miss Dix: I have discovered that my wife has been unfaithful to me for several years. She has told me that she did not know why she did this, asked me to forgive her and said that I could always trust her in the future. For the sake of our son, now about 11 years old, and our parents I am trying to think this thing out carefully. I am sure that my love for her which has stood so much for years for she has been cold and unsympathetic with me, has finally died. She has seen this and has become panicky in her plea of "why cannot I care for her again as I used to?" I feel awfully sorry for her, but it seems to me that a separation is the only solution. She has been a good wife and mother except for this.

L.C.

Answer: Many women forgive their husbands for being unfaithful to them. Why should not a man now and then extend the same mercy to a wife for straying off the straight and narrow path?

A man is a lonely creature without a wife. He is a forlorn creature without a home. He is a helpless creature with a child with no one to look after him, no mother to love and cuddle him and give him the ceaseless attention that children need.

Hard to Forgive

Of course, infidelity is a hard thing for one to forgive in one's mate. It is a particularly hard thing for a man to forgive in his wife, because when a man marries he puts his name and his honor in his wife's hands and he expects her to keep them clean. But often forgiveness is better than revenge and brings a man more happiness in the end.

Often a woman is swept from her moorings by some sudden storm of passion just as a man is, and when it is over she creeps back to her husband, battered and bruised, and spends the balance of her life licking his hand in gratitude if he does not shut the door in her face. Some times she, too, hungers for romance that her husband fails to give her and when she has eaten of forbidden fruit and found it dust, she ashes in her teeth, she ever afterward eats the plain bread and butter of domestic life on her knees.

So suppose you give her another chance. None of us are so perfect.

MARRIED 74 YEARS

Rothwell, England, Oct. 12 —(AP)—Mr. and Mrs. John Berridge, both 93, observed their 74th wedding anniversary today. Mrs. Berridge gave newsmen this recipe for long marriage:

"Always believe your husband knows best about everything."

It is believed that the number of big game animals in the United States is increasing.

three cars in one for work and fun!

new PLYMOUTH SUBURBAN

Here, at last, is the All-American all-around car—the completely new kind of car for the family, for sportsmen, farmers, salesmen, others with varied needs! A Plymouth exclusive!

available in ten striking colors Edmonton Beige • Rio Maroon • Peru Gray
Yukon Gray • Salvador Blue • Brunswick Blue • Kitchener Green • Bolivia Green • Plymouth Black • Trinidad Brown

White sidewall tires and rear bumper guards optional at extra cost.

1 sedan Here is style you'll be proud to parade on any boulevard! With Plymouth's famous Air Filtration, and chair-high seats for 5 passengers all cradled between the wheels, the Suburban rides like a firm sedan. It has a short turning radius, so it's easy to handle and park.

2 station wagon When used as a station wagon, there's cargo space behind the rear seat 42" long. Ample room for luggage, sports equipment, other cargo—and passengers.

3 cargo carrier The rear seat pivots down and forms part of the floor with its metal track. Then you have full-width cargo space 68" long. Thus the Suburban is changed to a utility car quickly, without removing the rear seat.

THOUSANDS OF USES. Haul all types of luggage, camping equipment, bundles, bulky samples, hunting dogs! With a mattress on the floor, you have a rolling play pen for babies, or sleeping quarters for adults. The spare tire is housed in a handy well, under a round, flat cover that's part of the floor, so it's easy to get at, yet out of the way. Special 18" wheels are available for rough country at slight extra cost.

WASHABLE INTERIOR. Upholstery is beautiful plastic—lustrous, long-wearing, comfortable, and washable.

ALL NEW BUT ALL PLYMOUTH TOO! The Suburban has the powerful 7 to 1 compression ratio... pillowy Super-Cushion Tires... Safety-Rim Wheels that protect in case of blowouts... convenient Ignition Key Starting... all the features of the great new Plymouths. But see all this for yourself! Drive the Suburban. Take it out on the roughest roads and give it the toughest assignments. Compare the ride! You'll decide right there!

Your nearby Plymouth dealer wants you to see and drive the Suburban

Chiang Visits Canton Aboard Warship

Canton, China, Oct. 11 — (UP) — Generalissimo Chiang Kai-shek made a quick return visit here on a warship today while communist forces smashed to within 40 miles of this provisional nationalist capital.

A delegation of top nationalist leaders headed by acting President Li Tsung-jen visited Chiang aboard the warship. It was understood they considered the possibility of abandoning Canton without a fight.

Li and the entire nationalist cabinet will flee Canton tomorrow, informed sources said, and the last nationalist officials will leave by Friday.

Military reports said the communists plunging south toward Canton had by-passed the last nationalist defense force at Tsing-yun, 40 miles north, and were racing on without opposition.

Fire Chief Makes Talk, Things Get Pretty Hot

Spokane, Wash., Oct. 12 — (AP) — Fire Inspector Richard Knox, giving a fire prevention week talk last night on the evils of careless cigarette throwing, was interrupted by sirens and bells.

Outside the Desert hotel where he was speaking, three fire wagons pulled to a halt and crews began setting up equipment to fight a blaze. There was lots of smoke but little damage.

Firemen found the source of the fire in a basement ventilating fan and placed the blame on a carelessly thrown cigarette.

Upstairs, Knox completed his talk.

MIXUP
Lawrenceburg, Tenn., Oct. 12 — (AP) — H. A. Cunningham, a busy man, walked to a mail box here yesterday, a letter in one hand. He opened the chute — and mailed the dollar.

He waited at the postoffice and got his dollar back — then mailed the letter.

Domestic representatives said the capital would be abandoned by the nationalist government by next Saturday.

Unofficial hints passed along with the note advised forcing diplomats to get out now, however, was not wait for Saturday.

Official reports said the new capital of nationalist China would be established at Chungking Oct. 20. It was expected, however, that the major forces of the government would go to the island fortress of Formosa.

Chiang Kai-shek arrived at Whampoa, 25 miles downriver from Canton, during the morning and called a conference immediately of top government and military officials.

Reliable sources said the nationalists discussed whether a defense of Canton will be attempted after the government leaves or if the city should be surrendered to the communists without a fight.

Nobody Blamed for Death Leap of Forrestal

Washington, Oct. 11 — (AP) — A navy board has absolved any person or persons in the naval service of fault or negligence in the death of former Secretary of Defense James Forrestal.

Forrestal, who retired from office in March, leaped to his death May 22 from a tower at the naval hospital in Bethesda, Md. He was admitted to the hospital April 2, suffering from what naval medical authorities described as "operational fatigue."

Navy Secretary Matthews made public the board's findings today but made no mention of the delay of more than four months in doing so.

Rear Adm. Morton D. Willcuts, then head of the national naval medical center at Bethesda, convened the five-man board of inquiry on May 23. It finished its hearings May 30 and submitted its report to Willcuts.

Three days later Willcuts sent the report to Rear Adm. Glenn Davis, head of the Potomac river naval command. Davis reviewed it and sent it on to rear Adm. George L. Russell, judge advocate general. Shortly afterward it went to Matthews.

The one-page report, as released by Matthews, consisted of five points concluding with the statement that Forrestal's death "was not caused in any manner by the intent, fault, negligence or inefficiency of any person or persons in the naval service or connected therewith."

Ford, Mercury to Get New Transmissions

Detroit, Oct. 12 — (AP) — Automatic transmissions will be available for Ford and Mercury model automobiles some time next summer.

The new device, developed jointly by Borg-Warner Corp. and the Ford Motor Co., is a three-speed and torque converted type. A company announcement said it will be priced at "probably not over \$150."

Ford already has General Motors' hydro-matic transmission on its Lincoln models. Ford officials said there was no present plan of replacing the hydro-matic with the new transmission.

Harold T. Youngren, Ford Motor company engineering vice president, said development work on the new Mercury-Ford transmission has been under way for about four years. He said both Ford and Borg-Warner will produce it in an effort to have it ready for use by June of July of next year.

The new transmission, he said, has fewer parts than other automatic transmissions now in use, is completely air-cooled without separate air cooler and gives greater fuel economy than a regular three speed standard type transmission installations.

It also eliminates the need for a clutch pedal.

The transmission selector, located on the steering column, has four positions to cover all driving conditions, plus a fifth position for engaging a parking brake.

Shifting to low gear and reverse is done manually. All other driving is done in the driving range position and the shifting is accomplished automatically.

Pregnant Girl Age 14, Blames Her Minister

Benton, Ill., Oct. 12 — (UP) — A pregnant 14-year-old girl who claims that her minister fathered the unborn infant, said today she was "stunned" to learn that it was "wrong" to be intimate with the clergyman.

Meanwhile, the Rev. James Louis Pettit pleaded innocent to charges of statutory rape involving the girl. He said he accusations were "ridiculous."

Members of Pettit's congregation at the Baptist church of Thompsonville, Ill., put up \$7,000 in property bonds for his release pending trial. He resigned as pastor of the church last week.

State's Attorney Joseph Hickman refused to divulge the name of the girl who brought the charges against Pettit. But he said she told him she still considered the minister a "wonderful man" despite her charge that he seduced her after "converting and baptizing me."

The member of the congregation who pledged his property for Pettit's release was a man, but many of those who signed the release papers were women members of the congregation.

Th girl, described as attractive and appearing older than her years, claimed she had been intimate with Pettit once a week since early summer.

"There is no sense at all to this charge," he said. His wife, an attractive middle-aged woman, would not comment.

Hickman said the case began when the girl's parents "brought

her to my office, almost paralyzed with shock." He filed charges against Pettit at their request after two doctors certified she was pregnant.

YOUR OLD TRUCK MAY TRADE FOR \$25 TO \$200 MORE THAN YOU THINK

THESE FOLKS MADE MONEY ON A FORD TRUCK TRADE!

Why Don't You?

"My old truck was just about ready for retirement, so when I heard about the big trade-in allowances my Ford Dealer was making, I decided to deal. If I had waited a few months longer, I would have had to take a couple of hundred dollars less for my old truck."

—Roy Gigi.

"When I decided to trade in my old truck, I did a little shopping around to see how good a deal I could make. The best deal was at Ford! My old truck brought me \$75 more from my Ford Dealer than it would have at three other places."

—Ben Fleischman.

"My old truck was facing some big repair bills. So, when I heard that my Ford Dealer was making big trade-in allowances, I went down to see. In addition to a dandy allowance, I figure I made a fast \$200 on a Ford Truck trade. Used truck prices were slipping so fast that in 90 days, the kind of truck I traded in was selling for \$200 less."

—Leonard Dobie.

"When I heard my Ford Dealer was making the best truck deals in town, I decided to check. I made up my mind on the spot, and I'm tickled pink I did. Used truck values have slipped in the last three months, so that I figure my quick thinking and fast action got me at least \$175 extra on a Ford Truck trade."

—Andrew Ligaski.

"When he topped the best previous offer by \$100, my Ford Dealer proved he was making the best truck deals in town. But that isn't all! I figure I made another \$150 by trading rather than waiting because used truck values were slipping so fast."

—Sam Perlsten.
